Green IT by the numbers

Smarter infrastructure, cleaner outcomes

Smarter Solutions from Exertis Enterprise + Partners

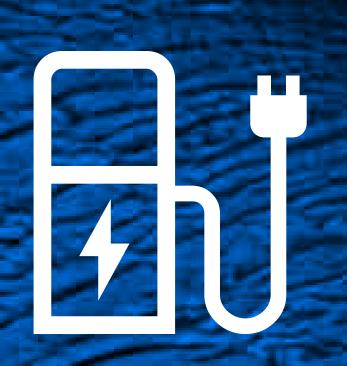

Eaton UPS: -25% energy

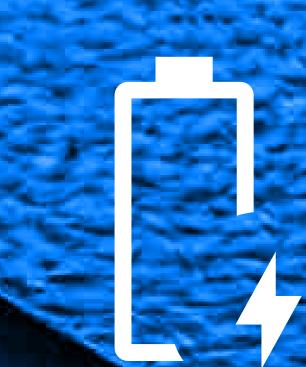

APC EcoStruxure: +15% efficiency

EV Charging: Gridready infrastructure

Lithium-lon UPS: 2.5x life

Why it pays to go green

- Save up to 30% on energy
- £112k saved on PUE power
- Avoid compliance risk
- Achieve ESG targets

Where we're wasting power

Datacentres use up to...

30% more power due to over-provisioning

Cooling consumes up to

500 of energy use in older facilities

Old UPS batteries

waste every 3–5 years

The Business Case

Pre-configured deployments

Remote PS & Educate support

Food waste bins + anaerobic digestion

Refurbish, reuse, recycle
