

From MSP to MSSP: More Security. More Revenue.

Your clients need more than uptime they need protection.
Becoming an MSSP means delivering managed security services that drive higher margins, deeper trust, and long-term growth.

But most MSPs give that revenue away to MDR vendors.
With Seceon, you don't have to.

Why Seceon is Built for the Journey

Seceon's unified aiXDR platform gives you everything you need to launch or scale your MSSP offering, without hiring a SOC or stitching together tools.

- Full-stack threat detection (endpoint, network, cloud, identity)
- Built-in SOAR and threat intel
- Multi-tenant design for easy client management
- Flat, predictable pricing
- Fast onboarding, go live in hours

aiXDR Platform Benefits

Higher Premiums

Increased monthly revenue generated from each client.

Security SLAs

Stronger security agreements facilitate bigger business deals.

Lower Churn

Improved customer retention from increased platform integration.

Resale Options

Ability to rebrand and resell the aiXDR platform.

Seceon aiXDR boosts revenue, retention, and resale opportunities for security providers.

Evolution of IT service providers from basic to advanced security.

Seceon empowers MSPs to evolve into full-service MSSPs with advanced threat detection.

Why Seceon?

- Unified aiXDR, aiSIEM, and SOAR in one platform
- AI-driven threat detection and automated response
- Multi-tenant support for MSSPs and scalable deployments
- Flat pricing, no ingest fees, and rapid onboarding

Platform Benefits

Seceon's platform delivers scalable, secure, and cost-efficient cybersecurity built for MSP growth.
